

SUCCESS IS ONLY 8 STEPS AWAY

1.) CHOOSE LEVEL

Choose between three levels of difficulty (Runner, Clerk, Trader). You will have 15 minutes to answer 10 questions.

3.) MAKE WAGER

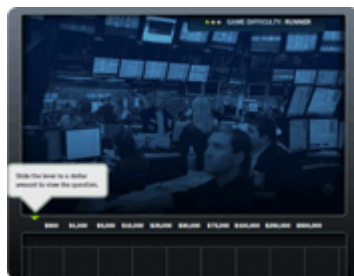

You are able to make a wager on a question if you have positive winnings. That wager can be up to 50% of your total winnings. Once prompted, type a dollar amount in the box provided and click on "Make a Wager".

5.) SELECT AN ANSWER

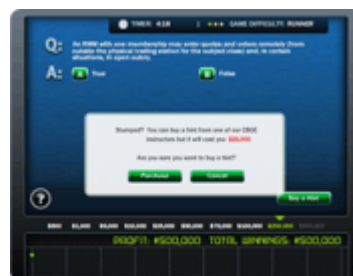

Questions will appear in several formats, including Multiple Choice and True and False. Player will have one opportunity to select an answer by clicking on the appropriate letter. Answering a question correctly will add the question value (including any wagers) to your overall winnings. Answering a question incorrectly will result in a reduction to your total winnings, equivalent to the value of the question and any wagers. This could result in a negative account balance.

2.) CHOOSE QUESTION VALUE

Select a question to answer by moving the slider to a dollar amount with your mouse. Once you stop and release the slider on a level, the question will immediately appear and you will not be able to choose another question level until you have answered the current question. Remember - the higher the dollar amount, the more difficult the question.

4.) BUY HINT

If you find yourself stumped on a question you are able to buy a hint from one of our CBOE instructors. It will cost 10% of the value of the question. If you do not have positive winnings, you are not able to buy a hint. Simply click on the "Purchase" button to complete your transaction.

6.) BUY MORE TIME

Once the timer reaches 1 minute remaining, you will be prompted with an opportunity to purchase more time. You can choose to buy 1, 2, or 5 additional minutes. If you do not have enough money to buy more time, you will not be prompted. If you finish all questions within the allotted time, you will be rewarded with bonus dollars (equivalent to \$100 per second remaining).

7.) RESULTS SCREEN

Once you complete the game, you will be brought to the results screen. You will see your final score, your final ranking and will be referred to educational resources on CBOE.com. If you are a logged-in MyCBOE member, your score will be recorded and compared with other game players. Top scorers may be eligible for special offers or opportunities.

8.) CHALLENGE A FRIEND

Think you can't be beat? Challenge up to three friends to see if they can beat your score.
