Contract Adjustment

Pursuant to Article VI, Section 11 and 11A of OCC's By-Laws, all GFI options outstanding as of Thursday, February 21, 2013, shall be adjusted to require the per-contract delivery or receipt of the following: **(A) 100 ADSs of Gold Fields Limited ("GFI"); plus (B) 25 ADSs of Sibanye Gold Limited ("SBGL").** The GFI option symbol will change to **GFI1**. Premiums and strike-price amounts for the adjusted GFI1 options will continue to be calculated on the basis of a multiplier of 100, *i.e.,* for premium and strike-price extensions, 1.00 will equal $100. Strike prices will remain the same. [Any FLEX series that may exist will be adjusted in a similar manner to the standardized option.]

***Any additional GFI series that are added prior to the ex-date will also be adjusted in the manner described above.**

New Unadjusted Series

To facilitate the maintenance of a fair and orderly market in Gold Fields Limited options, new GFI series with a contract unit of 100 shares will be introduced on Friday, February 22, 2013. The GFI series will be added for March, April, July, and October expirations at exercise prices nearest the money. Also, new GFI LEAP series with a contract unit of 100 shares will be introduced on February 22, 2013, for the January 2014 and January 2015 expirations at exercise prices nearest the money.

Settlement Procedures

The OCC will delay settlement of GFI1 exercise and assignment activity until the end of "when issued" trading in Sibanye Gold Limited.

GTC Order Conversion

On Wednesday, February 20, 2013, immediately after the CBOE close, the system will convert or cancel all resting orders in the GFI order book. If your firm has requested, all booked orders (phone, wire, and electronic) and all ORS orders residing outside the book (booth or crowd routed) will be converted reflecting the adjustment. If your firm has requested, all booked orders and ORS orders

residing outside of the book will be canceled. If your firm receives CXL drops, the CXL confirms will print at your booth at 3:15 p.m. ORS CXLs will also be transmitted electronically to your branches.

A report will be available at the Help Desk listing the orders that are converted or canceled. If converted, this list will also show how the new orders will be adjusted. This report will be available on request anytime during the day prior to the night of the adjustment.

Order Entry After Adjustment

In entering orders, it is essential for member firms to identify trades in old (adjusted) series with the option symbol GFI1; trades in the new (unadjusted) Gold Fields Limited series must have the standard option symbol GFI. Brokers should make certain that customers entering closing transactions describe the option series with the correct symbol. Negligence in this matter could lead customers to establish new positions in unadjusted series rather than closing out existing positions in adjusted series.

Position and Exercise Limits

The CBOE Department of Market Regulation has determined that: "The position and exercise limits following this ADS distribution will remain the same."
