RE: **Trina Solar Limited ("TSL/TBC/OCV/KLS")**
2-for-1 ADS Split
Ex-Distribution Date: January 20, 2010

Trina Solar Limited ("TSL/TBC/OCV/KLS") has announced a 2-for-1 American Depository Share ("ADS") split, with a payable date of January 19, 2010, to shareholders of record January 15, 2010. The ex-date for the ADS split is Wednesday, January 20, 2010.

Contract Adjustment

Pursuant to OCC rules (Article VI, Section 11), all outstanding TSL/TBC/OCV/KLS option series will be adjusted to reflect this 2-for-1 ADS split on Wednesday, January 20, 2010, at 8:30 A.M. Chicago time. The OCC will issue one additional contract for each open contract on the ex-date. Also on the ex-date, each TSL/TBC/OCV/KLS series will have an adjusted exercise price equal to one-half of the exercise price rounded to the nearest 1/8 of a point for each TSL/TBC/OCV/KLS series existing on the business day immediately prior to the ex-date. The option symbols will remain the same. Adjusted exercise prices are shown below. [Any FLEX series that may exist will be adjusted in a similar manner to the standardized option.]

The option adjustment will appear in the Daily Position Report of the clearing member firms on the ex-date. After 8:30 A.M. Wednesday, January 20, 2010, all trades, corrections, and exercises must be submitted to the CBOE and OCC on an adjusted basis.

Adjusted Exercise Prices

On Wednesday, January 20, 2010, the ex-distribution date, trading in TSL/TBC/OCV/KLS series will be on an adjusted basis. At 8:30 A.M., Chicago time, an opening rotation will be effected with the following adjustments:

Any additional TSL/TBC/OCV/KLS series that are added prior to the ex-date (e.g., the September series) will also be adjusted in the manner described above.

IMPORTANT -Order Entry After Adjustment

Please note that at the time of the adjustment, the strike prices of all TSL/TBC/OCV/KLS options will be reduced by one-half, and OCC will issue one additional contract for each open contract on the ex-date. **At 8:30 A.M., Chicago time, on Wednesday, January 20, 2010, all outstanding OCV 2 1/2 options will become OCV 1 1/4 options, and OCV 5 options will become OCV 2 1/2 options. Any OCV 2 1/2 positions opened prior to the ex-date that are closed out on or after the ex-date must be closed out as OCV 1 1/4 options.** Negligence in this matter could lead customers to establish new positions in

the 2 1/2 options rather than closing out then-existing positions in the 1 1/4 options.

Strikes that will be affected by the adjustment in the manner described above are included in the table below. Members should be aware of the potential for confusion respecting any of the related pairs of strikes shown below, and should be cautious in this regard.

GTC Order Conversion

On Tuesday, January 19, 2010, immediately after the CBOE close, the system will convert or cancel all resting orders in the TSL/TBC/OCV/KLS order books. If your firm has requested, all EBook orders (phone, wire, and electronic) and all ORS orders residing outside the book (booth or crowd routed) will be converted reflecting the adjustments. If your firm has requested, all EBook orders and ORS orders residing outside of the book will be canceled. If your firm receives EBook CXL drops, the CXL confirms will print at your booth at 3:15 p.m. ORS CXLs will also be transmitted electronically to your branches.

Immediately after the close, the book staff will return a final written report listing the orders that are converted or canceled to all firms. If converted, this list will also show how the new orders will be adjusted. This report will be available on request anytime during the day prior to the night of the adjustment.

Position and Exercise Limits

The CBOE Department of Market Regulation has determined that: "The position and exercise limits following this stock spilt will be any combination of TSL, TBC, OCV and KLS on the same side of the market not to exceed 500,000 contracts (50,000,000 shares) through January 21, 2012. Following the January 2010 expiration, the position and exercise limits will revert to the standard limit of 250,000 contracts (25,000,000 shares) of TSL".
