B) Fees for simple, non-complex orders in equity options classes will be calculated based on the following formula. Fees are calculated on a per-contract basis. The maximum fee will be \$0.85 per contract (\$0.085 for mini-options).

Fee = (C2 BBO Market Width at time of execution) x (Market Participant Rate) x 50* * For mini-options, the multiplier will be 5 instead of 50.

BBO Market Width: Displayed C2 Ask Price – Displayed C2 Bid Price

Market Participant Rate:

Market Participant	Rate
C2 Market-Maker*	30%
Public Customer (Maker)	40%
All other origins	50%

^{*} C2 Market-Makers will not be assessed a fee for Maker trades with any non-Public Customer market participants. The above fee structure calculation does not apply to C2 Market-Makers trading Penny Pilot options; such C2 Market-Makers will be assessed a fee of \$0.40 per contract (\$0.04 for mini-options).

Public Customer Taker Rebate

A rebate (in lieu of a fee) will be provided for simple, non-complex Public Customer orders in all equity options classes that remove liquidity (i.e. takers) based upon the following formula. Rebates are calculated on a per-contract basis. The maximum rebate will be capped at \$0.75 per contract (\$0.075 for mini-options) for non-Penny Pilot options and \$0.60 per contract (\$0.06 for mini-options) for Penny Pilot options.

Rebate = (C2 BBO Market Width at time of execution) x (Order Size Multiplier) x 50* *For mini options, the multiplier will be 5 instead of 50.

Order Size Multiplier:

Number of contracts in order	Multiplier
1-10	36%
11-99	30%
100-250	20%
251+	0%

Multiple orders from the same executing firm for itself or for a CMTA or correspondent firm in the same series on the same side of the market that are received by the Exchange within 500 milliseconds will be aggregated for purposes of determining the order quantity.

There will be no fee or rebate for trades on the open. If an execution occurs when there is no Displayed C2 Ask Price, the maximum fee and/or rebate will apply.

C) The following rates apply to complex orders in multiply-listed index, ETF and ETN options classes. For transactions in which simple, non-complex orders execute against a complex order, each component of the complex order will be assessed the complex order fees listed in this Section 1C of this Fees Schedule, while the simple, non-complex orders will be assessed the transaction fees listed in Section 1A of this Fees Schedule. For transactions in which a complex order executes against another complex order, each component of the complex order will be assessed the complex order fees listed in this Section 1C of this Fees Schedule.

For executions that occur within the Complex Order Auction ("COA") against auction responses, the incoming/auctioned order is considered maker, and auction responses are considered taker. Listed rates are per contract.

3. Access Fees

Type of PermitCost per MonthMarket-Maker Permit\$5,000Electronic Access Permit\$1,000

Market-Maker Permit- Entitles the holder to act as a Market-Maker. This permit provides an appointment credit of 1.0, a quoting and order entry bandwidth allowance, up to three logins and Trading Permit Holder status. The quoting bandwidth allowance for a Market-Maker Permit is equivalent to a maximum of 202,500,000 quotes over the course of a trading day.

Electronic Access Permit- Entitles the holder to access to the Exchange. Holders must be broker-dealers registered with the Exchange and are allowed to submit orders to the Exchange. The EAP provides an order entry bandwidth allowance, up to three logins and Trading Permit Holder status.

Access fees are non-refundable and are assessed through the integrated billing system during the first week of the following month. If a Trading Permit is issued during a calendar month after the first trading day of the month, the access fee for the Trading Permit for that calendar month is prorated based on the remaining trading days in the calendar month. Trading Permits will be renewed automatically for the next month unless the Trading Permit Holder submits written notification to the Registration Services Department by 4 p.m. on the second-to-last business day of the prior month to cancel the Trading Permit effective at or prior to the end of the applicable month. If cancellation of a Trading Permit is effective prior to the end of the applicable month, and the cancelling Trading Permit Holder later requests issuance of the same type of Trading Permit for the remainder of that month, the Exchange may issue the same type of Trading Permit (provided that a Trading Permit is available) but will not impose the additional prorated access fee for that month.

4. Supplemental Bandwidth Packet Fees

Market-Maker Quoting and Order Entry	\$1,000
Order Entry	\$1,000

The Quoting and Order Entry Bandwidth Packet (available to Market-Makers) provides bandwidth equivalent to 1/5th of a Market-Maker Permit.

The Order Entry Bandwidth Packet (available to Electronic Access Permit Holders) provides bandwidth equivalent to one Electronic Access Permit.

Bandwidth packet fees are non-refundable and are assessed through the integrated billing system during the first week of the following month. If a bandwidth packet is issued during a calendar month after the first trading day of the month, the bandwidth packet fee for that calendar month is prorated based on the remaining trading days in the calendar month. Bandwidth packets will be renewed automatically for the next month unless the Trading Permit Holder submits written notification to the Registration Services Department by the last business day of the prior month to cancel the bandwidth packet effective at or prior to the end of the applicable month.

5. Sponsored User Fees

\$2,500 (one-time)

* This fee is a one-time fee payable by a Trading Permit Holder for the registration of each of its Sponsored Users. The Sponsored User Program is governed by C2 Rule 3.15.

6. Sales Value Fee

The Sales Value Fee is assessed by C2 to each Trading Permit Holder for sales of securities in the following circumstances: (i) when a sale in option securities occurs with respect to which C2 is obligated to pay a fee to the SEC under Section 31 of the Exchange Act, and (ii) when a sell order in option securities is routed for execution at a market other than on C2, resulting in a covered sale on that market and an obligation of the routing broker providing Routing Services for C2, as described in C2 Rule 636, to pay the related sales fee of that market. To the extent there may be any excess monies collected under this Section 6, C2 may retain those monies to help fund its general operating expenses. The Exchange may reimburse its routing broker for all Section 31-related fees incurred by the routing broker in connection with the Routing Services it provides. The sales transactions to which the Fee applies are sales of options (other than options on a security index). The Sales Value Fee is collected indirectly from Trading Permit Holders through their clearing firms by OCC on behalf of C2 with respect to options sales and options exercises. The amount of the Sales Value Fee is calculated as described below.

Calculation of Fee for Options Sales and Options Exercises: The Sales Value Fee is equal to (i) the Section 31 fee rate multiplied by (ii) the Trading Permit Holder's aggregate dollar amount of covered sales resulting from options transactions occurring on the Exchange during any computational period.
